

IN THE JUSTICE COURT OF THE STATE OF OREGON  
FOR TILLAMOOK COUNTY

In the matter of administrative fees for )  
Monthly payment plans and promissory )  
Notes. ) GENERAL ORDER 10-1

It appears to the court that the court regularly imposes a fee to establish a monthly payment plan, and the current flat rate of \$10 does not compensate the county for the additional time court staff take to process periodic payments. A proportionate fee is more appropriate and reflects the number of payments needed to pay off the fine, and that proportion is related to amount of the fine and the class of the violation.

Being fully advised, it is hereby ORDERED that the court's schedule of payment administrative fees for promissory notes and payment plans is amended as follows:

Class A violation \$40  
Class B violation \$30  
Class C violation \$20  
Class D violation \$10

Possession of marijuana less than an ounce \$60  
MIP (Minor in possession of alcohol) \$30

10% on all miscellaneous file amounts.

These fees are in lieu of the court charging interest at the legal rate of 9% on judgments.

DATED January 22, 2010.
