

## Tillamook County Solid Waste Household Hazardous Material Out-of-County Contribution Form

To Whom It May Concern:

The Tillamook County Hazardous Waste Facility and the Household Hazardous Waste Program are community services which are financed by the ratepayers in Tillamook County. While our primary obligation is to residents of Tillamook County, we accept hazardous waste from outside the County, given that the opportunities for our ratepayer are not curtailed. We request the following information so that we can track quantities and associated costs. The information you provide may be shared with other counties and the Department of Environmental Quality for those purposes. We will not share your information with others, nor contact you for any unrelated issues. Thank you!
