At a regular meeting of the County Court on the date set above at which time were present County Judge H. Clay Myers and Commissioners L. C. Schulmerich and C. Ernest Iseri, the following business was transacted.

Meeting was held with Mr. George Goodrich, Mr. Sidney Lasswell of Cornell, Hayes, Howell and Merryfield, Burford Wilkerson, Clair Peterson and William Kunze, representing citizens of the Netarts-Oceanside area who are interested in having a feasibility study made of a sewer system for the area. The group presented petitions signed by citizens of the area in question requesting that the County Court act as agent in requesting funds from the Housing and Home Finance Agency for the study. There was discussion as to whether or not a district would have to be formed in order to request the funds. Mr. Lasswell advised the Court that to his knowledge it would not and that it would be proper to have the study first to determine which areas it would be feasible to include in the district or districts. Mr. Goodrich will get information as to whether the statutes provide for following such a route.

Deed was executed in favor of Elmer E. and Glenna W. Harris for lots 31-32-33, Block 65, Rockaway Beach.
