Notes:
(1) Required with application
(2) Optional
(3) To determine viability of later Construction Plan approval, the Director may require evidence of engineering feasibility. This may include documentation signed by a professional civil engineer.

All or a portion of this property may be located within an identified wetland. If the site is a jurisdictional wetland you must obtain any necessary State or Federal permits before beginning your project.

This application, if approved, includes only the plans listed above or as modified or conditioned by the County Road Department in their final plans approval.

The granting of this permit does not presume to give authority to violate or cancel the provisions of any Federal, State or Local law regulating construction or the performance of construction.

**THIS PERMIT APPLICATION DOES NOT ASSURE PERMIT APPROVAL.** Such approval can be given only after staff review determines compliance with applicable requirements.

I, the applicant, verify that I have read and understand the above information. I further certify that the information that I have provided is complete and accurate and may be relied upon by the Road Department in the processing of my application. I understand that fees are considered non-refundable in accordance with Section X of the Public Road Improvement Ordinance.

**Signature of applicant** (person responsible for the proposed road improvement construction)
