Cape Meares Road Relocation

Construction Activities & Upcoming Work

This will be our last Newsletter for 2022, to restart in March when work resumes. Geofoam wall installation and coverage for winter shut down will continue next week. Heavy equipment is working throughout the project. There is no public access within project limits, which includes no pedestrian or bike access. The fixed construction completion date is October 31, 2023. Winter shutdown will occur on 12/9/2022, with work resuming in March 2023. Erosion control monitoring and maintenance will continue throughout the winter.

ROAD CLOSURES

Current road closure points will remain in effect through the winter months on Bayocean Road near the Cape Meares Lighthouse, and approximately 0.5 miles south of the Lighthouse. Construction will have minimal impact on public traffic as it is closed to through traffic. Please be advised that project limits are outside the gate on Cape Meares Loop coming south from Bayocean Road. See map on the following page for areas not accessible to the public.
